Aa Reference	☰ Topic	☰ Part/Location	☰ About	☰ Uses	📅 Date
[1]	COVID	Intro	COVID-19 pandemic effect		
[2]	Google Forms	Intro	Google Forms, kung paano yung mga forms ang nasasgutan gamit google forms		
[3]	Filling up forms	Intro	About the security of writing and filling up forms		
[4]	Blockchain	Intro	Utilizing the Blockchain technology as a centralized database, presenting how the users information is secured.		
[5]	Lines	Background	A study in texas, showed 21% of students patient leave their lines kasi ang tagal daw		
[6]	COVID	Background	COVID effect in schools, pero ngayon bubuksan na nila yung school on limited basis		
[7]	Opening of Schools	Background	According to the DepEd, (2022) nasa 26 million ang prospected na papasok. Kasama dito yung public and private school		
[8]	Opening of Schools	Background	According naman sa CHED, nasa 300 colleges na ang nagbukas na f2f classes, nasa 1000 courses and degrees ang kasama dito

[9]	Filling up forms	Background	According kay Comanda, yung mga logbooks and fill out forms hindi na reliable kasi finfalsify nila yung information. The falsification includes wrong names. Usage of other peoples names.incorrect address and incorrect numbers		
[10]	NFC	Theoretical	Diagram ng NFC		
[11]	Theoretical	Theoretical	Socio-Technical Systems Theory		
[12]	Blockchain	Theoretical	According to S. Cherukupally, blockchain has the potential in different uses.Features of Blockchain : Transparency of Data, Accountability of Transactions, without intermediary and data symmetry.The technology has promises but it need improvement in the sector of cryptographic algorithms.	SOP. 3 (1. How can the open-source Blockchain be used as a database?)	
[13]	NFC	CL (Foreign)	NFC is : High frequencyLow bandwidthWireless CommunicationAng edge ng NFC in the aspects of security dahil need lumapit. It need yung presence ng user.It has three different modes"Reader/Writer - one wayPeer-to-peer - pasahan ng information, pwede thru video or filesCard Emulation - cloning ng cards, cincopya yung laman		
[14]	NFC NFC-based System	CL (Foreign)
